All elevators listed herein, unless marked by an "X", are licensed for the crop year 1958-59 as at December 1, 1958.

The storage capacity figures shown against each individual elevator include the elevator proper and all annexes operated in conjunction therewith that are located on the railway right-of-way as registered with the Board of Grain Commissioners for Canada as at December 1, 1958.

The managers of certain elevator buildings which cannot be licensed as elevators on account of faulty receiving scales have been granted authority to operate them as Grain Storage Buildings annexed to specific licensed elevators. These buildings, however, are listed herein as unlicensed elevators, as they can not be used for the purpose of receiving producers' grain delivered in truck- or wagon-load lots; they are indicated by the sign "XGSB".

SUMMARY OF  
SUPPLEMENTARY STORAGE SPACE  
ANNEXED TO  
PUBLIC COUNTRY ELEVATORS

Grain Storage Buildings are buildings authorized for use for the temporary emergency storing of grain, which can not qualify for licences as country elevators under the Canada Grain Act. These buildings are located on and off railway sites and provide supplementary storage to licensed country elevators. They are operated only by the managers of licensed public country elevators and are located at varying distances from the elevator proper.

These Grain Storage Buildings are not grain elevators and can not receive grain directly from producers. As these buildings are being used only temporarily, the undershown figures pertaining to such type of storage have not been included elsewhere in this publication except in the final summaries.

£ 1,655,000 bushels of this supplementary storage space is located in four (4) buildings which are of regular country elevator construction. Such buildings, however, for various reasons can not be licensed as regular grain elevators. These buildings are shown elsewhere throughout this publication as "Unlicensed Elevators" (marked XGSB) as they can not receive grain directly from producers.
